PROJECT EXPERIENCE

ARK — Community Website
- Used SpringBoot to develop a community website
- Our website allows users to log in and view or create requests for help and then respond to them
- I built a response class and controller that was responsible for an in app messaging, and created a feature that allowed users to sort their request feed by priority level.

Tactical Construction Website Design — Construction Company
- Used bootstrap to design a website for a construction website.
- Developed an online platform for client's work to be viewed
- Created a place for potential customers to view services and set up an estimate

EDUCATION

LaunchCode, LC101 Programming Course — 2022
Ohlone College, A. A. Anthropology — 2014

WORK EXPERIENCE

Server, The Melting Pot, Remote, 2019 – 2022
- Provided customer service to guests , managed team members, and worked with customers to create the perfect space in our event room for their parties.
- Trained employees over 20 employees in procedures, safety protocols, and customer service.

Project Manager, Baja Vision, Remote, 2014 – 2019
- Managed house building projects
- Coordinated with vendors, volunteers, and clients to ensure completion of projects
- Created and implemented efficient scheduling, and safety protocols. This allowed my team to meet deadlines and be more productive. It also ensured that volunteers and employees had proper safety equipment and certifications.
